SUMMARY

Computer Applications graduate (BCA, CGPA 8.31/10) currently pursuing an MCA in Artificial Intelligence & Machine Learning, with hands-on experience building responsive, user-focused web applications with HTML, CSS, JavaScript, and React.js. Currently working as a Frontend Developer Intern at Webority Technologies, with prior internship experience delivering a full company website end-to-end. Comfortable across the stack — from clean frontend interfaces to backend logic, data structures, and application design — and expanding into full-stack development with Node.js and MongoDB.

TECHNICAL SKILLS

Languages: C++, Python, Java, C#, SQL

Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS, CSS Flexbox, DOM Manipulation, Responsive Web Design

Backend & Databases: Node.js, Express.js, MongoDB, MySQL

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Software Engineering

Tools & Platforms: Git, GitHub, VS Code, npm, Linux, MS Excel (Advanced)

Currently Exploring: Artificial Intelligence & Machine Learning

PROFESSIONAL EXPERIENCE

Frontend Developer Intern, Webority Technologies

Aug 2026 – Present

- Build and maintain responsive web interfaces for real client projects, applying HTML, CSS, and JavaScript best practices.
- Collaborate with the development team to implement UI features and ensure consistent, cross-browser experiences.

Frontend Developer Intern, Shriji Agro Products Pvt. Ltd.

Jun 2025 – Jul 2025

- Delivered a full, responsive company website end-to-end, showcasing products, services, and company details to prospective customers.
- Built clean, mobile-friendly page layouts with HTML, CSS, and CSS Flexbox, ensuring consistent display across screen sizes.
- Implemented interactive page elements with JavaScript to improve usability and user engagement.
- Collaborated with a fellow developer and a mentor to plan features, review code, and meet project deadlines.

PROJECTS

Food-Lover – Restaurant & Food Ordering Landing Page — github.com/iaashishk/Food-Lover

- Built a responsive restaurant/food landing page with HTML5, Bootstrap 5, and vanilla JavaScript, including dark mode, mobile navigation, and scroll-triggered animations.
- Implemented a live countdown timer for promotional offers to drive urgency and engagement.

E-Commerce Website — github.com/iaashishk/ecommerce-website

- Built a fully functional e-commerce frontend with product listing, cart management, and checkout flow using HTML, CSS, and JavaScript.
- Implemented dynamic product filtering and real-time cart updates via DOM manipulation without any external frameworks.

Weather App — github.com/iaashishk/weather-app

- Developed a weather application that fetches live data from a public REST API and displays real-time temperature, humidity, and conditions for any searched city.
- Handled asynchronous API calls using the JavaScript Fetch API, with error handling for invalid inputs and network failures.

Expense Tracker — github.com/iaashishk/expense-tracker

- Built a personal finance tracker with add/delete transaction features, live balance calculation, and income/expense categorization using vanilla JavaScript.
- Used localStorage to persist data across browser sessions, retaining user data without a backend.

Shriji Agro Product Website — github.com/iaashishk/SHRIJI-AGRO-PRODUCT-WEBSITE-PROJECT

- Built as a 2-person team project under the mentorship of Pankaj Arora, delivering a fully functional business website.
- Applied HTML, CSS, CSS Flexbox, and JavaScript to create a responsive, multi-page site showcasing products and services.

CERTIFICATIONS

Software Engineering — NPTEL (IIT / MHRD)

2025

Advanced Excel — Amity University Online

2026

EDUCATION

M.C.A. – Artificial Intelligence & Machine Learning, Amity University Online

2026 – Present

B.C.A. – Computer Applications, J.C. Bose University of Science & Technology, YMCA

2023 – 2026

CGPA: 8.31 / 10
