SUMMARY

Computer Applications graduate (BCA, CGPA 8.31/10) currently pursuing an MCA in Artificial Intelligence & Machine Learning, with hands-on experience building responsive, user-focused web applications. Currently working as a Frontend Developer Intern at Webority Technologies, with prior internship experience delivering a full company website end-to-end. Comfortable across the stack — from clean frontend interfaces to backend logic, data structures, and application design — and expanding into full-stack development with React.js, Node.js, and MongoDB.

TECHNICAL SKILLS

Languages: C++, Python, Java, C#, SQL

Frontend: HTML5, CSS3, CSS Flexbox, Bootstrap, Tailwind CSS, JavaScript (ES6+), DOM Manipulation, Responsive Design

Frameworks & Database (Learning): React.js, Node.js, Express.js, MySQL, MongoDB, .NET

CS Fundamentals: Data Structures, OOP, DBMS, Operating Systems, Computer Networks, Software Engineering

Tools & Platforms: Git, GitHub, VS Code, npm, Linux

Exploring: AI / ML

INTERSHIPS

Frontend Developer Intern — Webority Technologies Aug 2026 – Present

- Working as a Frontend Developer Intern, building and maintaining responsive web interfaces.
- Collaborating with the team on real client projects, applying HTML, CSS, and JavaScript best practices.

Frontend Developer Intern — ShriJi Agro Products Pvt. Ltd. Jun – Jul 2025

- Developed a responsive company website for ShriJi Agro Products to showcase products, services, and company details to prospective customers.
- Built clean, mobile-friendly page layouts using HTML, CSS, and CSS Flexbox, ensuring consistent display across screen sizes.
- Implemented interactive page elements with JavaScript to improve usability and user engagement.
- Collaborated with a fellow developer and a mentor to plan features, review code, and meet project deadlines.

PROJECTS

E-Commerce Website 2026

- Built a fully functional e-commerce frontend with product listing, cart management, and checkout flow using HTML, CSS, and JavaScript.
- Implemented dynamic product filtering and real-time cart updates via DOM manipulation without any external frameworks.

Weather App 2026

- Developed a weather application that fetches live data from a public REST API and displays real-time temperature, humidity, and conditions for any searched city.
- Handled asynchronous API calls using JavaScript Fetch API with error handling for invalid inputs and network failures.

Expense Tracker 2026

- Created a personal finance tracker with add/delete transaction features, live balance calculation, and income/expense categorization using Vanilla JavaScript.
- Used localStorage to persist data across browser sessions, ensuring user data is retained without a backend.

ShriJi Agro Product Website 2025

- Built a 2-person team project under the mentorship of Pankaj Arora, delivering a fully functional business website.
- Applied HTML, CSS, CSS Flexbox, and JavaScript to create a responsive, multi-page site showcasing products and services.

CERTIFICATIONS

Software Engineering — NPTEL (IIT/MHRD) 2025

EDUCATION

M.C.A. — Artificial Intelligence & Machine Learning, Amity University Online 2026 – Present

B.C.A. — Computer Applications, J.C. Bose University of Science & Technology, YMCA, Faridabad 2023 – 2026

CGPA: 8.31 / 10
